REJUMAX 2020 – SUMMER PROGRAM FOR STUDENTS

Dear Parents

It is a big task and challenge for the parents to engage the children during the summer holidays as there are restrictions for public entertainments, visiting public places etc. It is also a fact that continuation in a confinement area for long period also is not advisable for the physical, mental and social growth and development. Considering all these facts, the Model School has submitted a summer program named **REJUMAX 2020**. As it is not workable to offer a summer program for all students, the offered program is for limited and the interested students only.

The program includes : Body & Mind related (activities, lessons, etc.), Motivational classes by Psychologists, Literary Activities (English Literature), Literary Activities (Arabic literature), Arts & craft, Art Excel (sculpture making), Innovation (STEAM) Science activities, Writers' workshop, Reading campaign, Fitness challenge by Physical Education Dept. etc. are the main programs.

Some club activities and competitions are also will be conducted. Students of different age group will have different and age appropriate programs.

The summer program starts on Sunday, 12th July and ends on Saturday, 29th August, 2020, covering 80-85 hrs. for various age groups. The program costs Dirhams One hundred (AED.100/-) only, payable along with the school fees later. Interested students are requested to register immediately using the following link: https://docs.google.com/forms/d/e/1FAIpQLScuFC4xWudqr5GOohgeaxnwfJ - vhGRqTMOG9TYY2K8ozuYNw/viewform?usp=sf_link.

As we can engage limited number of students only and the registration will be closed as and when the number of registration is saturated.

Principal
